

1. ADVANCE DIRECTIVES

Augusta Eye Surgery is not an acute care facility; therefore regardless of the contents of any advanced directive or Instructions from a healthcare surrogate, if an adverse event occurs during your treatment, we will initiate resuscitative or any other stabilizing measures and transfer you to an acute care setting for further evaluation. Any information regarding current health care directives or health care power of attorney will be shared with the facility where you are transferred.

As a patient you have the right to:

- Control all aspects of your personal care and medical treatment,
- Insist upon medical treatment,
- Decline medical treatment, or
- Direct that medical treatment be withdrawn.

State Law has provided statutory forms for both living will and durable power of attorney for health care.

I **have executed** an advanced directive or living will. Yes No

Copied, placed in chart. Copy not obtained.
